‘Zygmunt Bauman has known the terror of war and the trauma of exile. These experiences have made him a champion of the underdog and a caustic critic of the status quo. Yet for all his international popularity - he is one of Europe’s most influential sociologists - he remains a loner and a maverick.’ The Guardian

Professor Zygmunt Bauman, resident in England since 1971 after being driven out of Poland by the Communist government, is one of the world’s most eminent social theorists; writing on issues as diverse as modernity and the Holocaust, postmodern consumerism and liquid modernity.

A fascinating look at the role of management in our current, bleak times, and its role in a – hopefully – brighter future

Management in a Liquid Modern World
ZYGMUNT BAUMAN, IRENA BAUMAN, JERZY KOCIATKIJEWICZ AND MONIKA KOSTERA
University of Leeds, University of Sheffield, University of Sheffield and University of Warsaw, Poland

What is the meaning of management now almost omnipresent and all-powerful in our current bleak times, a time when, paradoxically, the seemingly omnipotent force of management does not seem to work? Does it have a role to play today and in the future? What can it become and whom should it serve when a new, hopefully more humane, system begins to dawn?

A second series of conversations sees Bauman and Obirek debating good and evil and the burden of human responsibility

On the World and Ourselves
ZYGMUNT BAUMAN AND STANISLAW OBIREK
University of Leeds and University of Warsaw

In the second series of their conversations Bauman and Obirek reflect on human responsibility for the choice between good and evil, self-formation and self-assertion, the need for recognition or the call to empathy, mutual respect, human dignity and tolerance.

An engrossing debate between a sociologist and a theologian about the place of religion in today’s world.

Of God and Man
ZYGMUNT BAUMAN AND STANISLAW OBIREK
University of Leeds and University of Warsaw

In this engaging dialogue, Zygmunt Bauman, sociologist and philosopher, and Stanislaw Obirek, theologian and cultural historian, explore the place of spirituality and religion in the world today and in the everyday lives of individuals. While starting from different places, Bauman and Obirek are driven by the same concern to reconcile the multiplicity of religions with the oneness of humanity.

How does an individual understand her or his position in the world?

Practices of Selfhood
ZYGMUNT BAUMAN AND REIN RAUD
Are we as human beings determined by our genetic heritage, social circumstances and cultural preferences, or are we free in our choices? How does selfhood emerge? Are the patterns of selfhood fundamentally changing in the present world? These are some of the questions that Zygmunt Bauman and Rein Raud explore in their engaging and wide-ranging dialogue.

A rethinking of the concepts and cognitive frames used to narrate human individual experience and their joint history.

**Liquid Modernity**  
ZYGMUNT BAUMAN

Bauman examines how we have moved away from a 'heavy' and 'solid', hardware-focused modernity to a 'light' and 'liquid', software-based modernity. This passage, he argues, has brought profound change to all aspects of the human condition.

Bauman's brilliant writings on liquid modernity have altered the way we think about the contemporary world.

**Liquid Times: Living in an Age of Uncertainty**  
ZYGMUNT BAUMAN

In this short book, Bauman explores the sources of the endemic uncertainty which shapes our lives today and, in so doing, he provides the reader with a brief and accessible introduction to his highly original account, developed at greater length in his previous books, of life in our liquid modern times.

A highly original analysis of our current predicament by two of the world's leading social thinkers.

**State of Crisis**  
ZYGMUNT BAUMAN AND CARLO BORDONI

Bauman and Bordoni explore the social and political dimensions of the current crisis. While this crisis has been greatly exacerbated by the turmoil following the financial crisis of 2007-8, Bauman and Bordoni argue that the crisis facing Western societies is rooted in a much more profound series of transformations that stretch back further in time and are producing long-lasting effects.

2014, 180 pages, pb, 978-0-7456-8095-8, £15.99

An expert account and critique of our consumerist society.

**Consuming Life**  
ZYGMUNT BAUMAN

Bauman examines the impact of consumerist attitudes and patterns of conduct on various apparently unconnected aspects of social life – politics and democracy, social divisions and stratification, communities and partnerships, identity building, the production and use of knowledge, and value preferences.

2007, 168 pages, pb, 978-0-7456-4002-0, £15.99

A critique of the current, unprecedented, indefensible and still accelerating growth in social inequality.

**Does the Richness of the Few Benefit Us All?**  
ZYGMUNT BAUMAN

It is commonly assumed that the best way to help the poor out of their misery is to allow the rich to get richer; and yet these commonly held beliefs are flatly contradicted by our daily experience and an abundance of research findings, so why are these opinions so widespread? This short book by Bauman is an attempt to answer this question.

A profound and brilliant critique of Sociology in relation to the Holocaust

**Modernity and the Holocaust**  
ZYGMUNT BAUMAN

The book examines what sociology can teach us about the Holocaust, but more particularly concentrates upon the lessons which the Holocaust has for sociology. Bauman's work demonstrates that the Holocaust has to be understood as deeply involved with the nature of modernity.

A brilliant analysis of what it means to be watched – and watching – today.

**Liquid Surveillance: A Conversation**  
ZYGMUNT BAUMAN AND DAVID L YON  
University of Leeds and Queen's University, Canada

In this book the surveillance analysis of David Lyon meets the liquid modern world so insightfully dissected by Zygmunt Bauman. Is a dismal future of moment-by-moment monitoring closing in, or are there still spaces of freedom and hope?

A major contribution to the unfolding debate about globalization.

**Globalization: The Human Consequences**
ZYGMUNT BAUMAN

“Globalization” is a word that is currently much in use. This book is an attempt to show that there is far more to globalization than its surface manifestations. Unpacking the social roots and social consequences of globalizing processes, this book disperses some of the mist that surrounds the term.

A critical reflection of the concept of culture and how we can revive the notion.

**Culture in a Liquid Modern World**
ZYGMUNT BAUMAN

Bauman retraces the journey of the concept of culture and examines its fate in a world marked by the powerful new forces of globalization, migration and the intermingling of populations. He argues that Europe has a particularly important role to play in revitalizing our understanding of culture.

2011, 144 pages, pb, 978-0-7456-5355-6, £12.99

An examination of the central figure of our contemporary, ‘liquid modern’ times: the man or woman with no bonds.

**Liquid Love: On the Frailty of Human Bonds**
ZYGMUNT BAUMAN

The uncanny frailty of human bonds, the feeling of insecurity that frailty inspires, and the conflicting desires to tighten the bonds yet keep them loose, are the principal themes of this important new book by Zygmunt Bauman.

A probing inquiry into the fate of our moral sensibilities.

**Moral Blindness: The Loss of Sensitivity in Liquid Modernity**
ZYGMUNT BAUMAN AND LEONIDAS DONSKIS

University of Leeds and Vytautas Magnus
University, Lithuania

The distinctive kind of moral blindness that characterizes our societies is brilliantly analysed by Bauman and Donskis through the concept of adiaphora: the placing of certain acts or categories of human beings outside of the universe of moral obligations and evaluations.

2013, 224 pages, pb, 978-0-7456-6275-6, £15.99

A testimony to Bauman's belief in the enduring relevance of sociology.

**What Use is Sociology?: Conversations with Michael Hviid Jacobsen and Keith Tester**
ZYGMUNT BAUMAN, MICHAEL HVIID JACOBSEN AND KEITH TESTER

In a series of conversations with Michael Hviid Jacobsen and Keith Tester, Bauman explains why sociology is necessary if we hope to live fully human lives. Bauman makes a powerful case for the practice of sociology as an ongoing dialogue with human experience, and in so doing he issues a call for us all to start questioning the common sense of our everyday lives.

A brilliant exploration of ideas of waste in our time.

**Wasted Lives: Modernity and Its Outcasts**
ZYGMUNT BAUMAN

The global spread of modernity has given rise to growing quantities of human beings who are deprived of adequate means of survival. With characteristic brilliance, Bauman unravels the impact of this transformation on our contemporary culture and politics and shows that the problem of coping with ‘human waste’ provides a key for understanding some otherwise baffling features of our shared life.

This topical book explores the notion of identity in the modern world.

**Identity: Conversations With Benedetto Vecchi**
ZYGMUNT BAUMAN

Identity - a notion that by its very nature is elusive and ambivalent – has become a key concept for understanding the changing nature of social life and personal experience in our contemporary, liquid modern age. In this brief book, Bauman explains compellingly why this is so.

“An insightful reflection on the pursuit of happiness…”

The Art of Life
ZYGMUNT BAUMAN
This is not a book of designs for the art of life nor a 'how to' book: it is instead a brilliant account of conditions under which our designs-for-life are chosen, of the constraints that might be imposed on their choice and of the interplay of design, accident and character that shape their implementation. Last but not least, it is a study of the ways in which our society influences the way we construct and narrate our life trajectories.

An examination of why the poor are the collateral damage of a profit–driven, consumer–oriented society

Collateral Damage: Social Inequalities in a Global Age
ZYGMUNT BAUMAN
Collateral damage is one of the most salient and striking dimensions of contemporary social inequality. In this book, Bauman examines the selective affinity between the growth of social inequality and the rise in the volume of 'collateral damage' and considers its implications and its costs.
